OFFICIAL PAPER

REDONDO BEACH, LOS ANGELES COUNTY, CALIFORNIA, THURSDAY, JANUARY 2, 1908.

VOL. 3. No. 25

## CAPTURED EVERYTHING

### Redondo's Float, a Whale, Proved Novelty of the Tournament of Roses at Pasadena.

The float of the Redondo Beach Chamber of Commerce entered in the Pasadena Tournament of Roses was awarded first prize in its class, exhibit of civic bodies, receiving a blue sash and a cash prize of \$75,000. It also won the special prize of a silver cup, offered by the Pasadena Board of Trade for the best exhibit of any civic body outside of Pasadena. These prizes are now on display in the show window of Protsch, the dealer.

When the Redondo Beach Chamber of Commerce last Thursday decided to enter a float in the Pasadena Tournament of Roses there were just six days in which to get the work done. There were a few members who thought the time was all too short for the purpose, but they had not taken into consideration the determination

prizes awarded, the float was dismantled in the Tournament Park, the work taking but an hour and a half, and Mr. Ainsworth found his machine none the worse for the strange use it had been put to.

The committee in charge of preparing the float was composed of the following gentlemen: C. H. Burnett, chairman; J. P. Luxford, T. E. Kirby, F. B. Martin, R. D. Smith, P. S. Venable, H. B. Ainsworth, Lewis Cissel, F. A. Bulkley, W. J. Hess, J. H. Cavanaugh and the members of the Arrowhead Club. Valuable assistance was rendered, both here and at Pasadena, by other members of the Chamber of Commerce, as well as by citizens generally. Justice would not be done were not special mention made of the work accomplished by J. P. Luxford, who, it is the general belief, did not sleep any that entire week; W. T. Maddex, Ed. C. Thomas, W. F. Goble and R. E. Ellithorp, to say nothing of Mr. Burnett, who was here, there and everywhere at the same time.

The Arrowhead Club as a body was invited to act as a guard of honor to his majesty the whale, and the boys not only accepted this invitation, but as well tendered their services for the work of covering the immense framework with the glossy green magnolia leaves used as the body covering of the leviathan. The boys worked faithfully before the float left here, made a splendid appearance in the parade, and were likewise on hand in helping to dismantle the hulk afterwards. A particularly hard and disagreeable job they took care of man-

## LOOKING BACKWARD

### Short Resume of Principal Improvements in Redondo During the Year 1907.

That Redondo has been forging ahead at a remarkable gait is so self-evident as to scarcely need mention. Nevertheless, a short review of the principal improvements during the year just closed will not be amiss.

First in importance has been the construction of the \$1,500,000 power plant, a structure worthy of a mighty metropolis, and which will insure remunerative employment to a large number of skilled mechanics.

Next in point of importance comes the Pavilion, the beautiful building which graces our water front and not alone furnishes a meeting place for amusement seekers, but houses many of our business concerns. This, in construction alone, represents an outlay of \$85,000, and with the furnishings \$100,000.

Alongside of the Pavilion is the re-

under way, to cost about \$30,000, must not be forgotten, and enough public work of other description has already been ordered to insure a good circulation of money here for some time to come.

In all probability a new bath house will be built ere long, to replace the one now existing, and the old Casino is to be extensively remodeled and other improvements by the Redondo Improvement company which we are not at liberty to disclose are under discussion.

The wave motor pier and barge are also among the year's constructions, and this alone, if it proves all its earnest promoters look for, will revolutionize the business of power-generation and bring Redondo into the limelight as being the location of the first commercially successful wave motor plant.

This article would not be complete without recounting the principal industries of our little city.

Foremost among these is the shipping, which gives employment to many men, who during the past year have handled over 100,000,000 feet of lumber, 40,000 tons of general merchandise and 600,000 barrels of oil. That this is a rapidly growing industry is shown by the fact that the business handled during the month just closed was nearly double that of the corresponding period of the previous year. Six hundred and fourteen merchant vessels anchored here as against 400 of the year previous.

The Montezano Lumber and Manufacturing company's wholesale yards have been established during the past few months, and they are now putting up a mill to handle their own business. In addition to this they operate an independent line of steamers, which supplies them with stock from their northern forests.

One of our most important industries is that of car building and repairing. During the past year numerous passenger coaches and freight and flat cars have been turned out at the big shops on Emerald street, where a large force of men is kept constantly employed.

The Redondo Milling company, the Redondo Planing Mill, the lumber yards of the Montgomery & Mullin company and of the C. Ganahl company and the brick yard are among our industrial establishments, for though the plant of the latter institution is over the line into Hermosa, they claim Redondo as their headquarters.

Of business places there is no dearth. There are no less than seven groceries, four of which are on a large scale, three bakeries, four dry goods stores, including one exclusively men's furnishing store, besides one or two places which carry small stocks in connection with other business.

There is also a store carrying millinery, music and art goods, two drug stores, three barber shops, four pool rooms and four saloons. A brick garage and machine shop is a recent construction. There are two blacksmith shops, a tinshop and a livery stable.

We have two lapidaries who do a thriving business cutting thousands of the semi-precious stones picked up along the beach, besides carrying large stocks of curios, a business also carried on by one or two other establishments.

We have also a dentist and five

(Continued to Page Six)

## OPENING OF NEW CASINO.

### Handsome Building Thrown Open to the Public Tuesday Evening.

Elaborate announcements sent out last week announced the formal opening of the new Casino for Tuesday evening of this week. The event came off as announced, the attendance both of local people and those from out of town being very heavy. M. Mayer, the genial proprietor, proved his ability as a host and royally welcomed all his friends.

The new building, which is an almost exact reproduction of the one destroyed by fire last July on the morning it was to have been opened, is an architectural beauty, and is also a monument to the grit and persistence of Mr. Mayer. The building is in the sixteenth century style, was planned by E. C. Kent, and constructed by Contractors Cleveland & Dorrington of this city. Being located just to the south of the new Pavilion, it makes one more in the chain of handsome structures built or contemplated along the water front.

Mrs. L. B. Clary has charge of the buffet in connection with the Casino, and was a host in herself in providing entertainment for the guests of the house.

Music for the occasion was furnished by the Schoneman-Blanchard orchestra.

It is understood that the old rink building used temporarily as quarters for the Casino will now be occupied by a bowling alley and pool hall.

Geo. Perviance, of the Montezano Lumber and Manufacturing Co., held the lucky number in the Protsch drawing for the watch.

## ALONG THE STRAND

### Flotsam and Jetsam of News Gathered From Near-by Beaches.

Tomorrow evening Venice will hold public celebration of the third year of her existence, on board the Cabrillo, where able orators will hold forth.

The ordinance to put a fine of \$250 on every tent at Ocean Park and Venice has been passed on the second reading, which looks as though Abbot Kinney's Tent City would soon be a thing of the past, as the ordinance will undoubtedly go through.

European steamers of the Kosmos line, sailing from Hamburg, Germany, to Seattle and San Francisco will probably make San Pedro a port of call in the near future, as investigations along this line are now being made.

A morning paper contains a wild and woolly account of an alchemist named Hatch in Hermosa who causes gold and other metals to "grow" and also transmutes the baser metals into gold. According to Hatch it takes gold eighteen months to "grow," under his system of fertilization, while he can transmute copper into gold within nine weeks. He is quoted as saying that he intends to devote the proceeds of his alleged discovery to the liberation of the Russian Jews.

Three hundred school children at Santa Monica were in peril of their lives from fire this morning when the Washington school, the largest of any in the bay cities, was totally destroyed by fire. The presence of mind of the principal, Mrs. Elizabeth Hamlin, who rang the gong for a fire drill, prevented any confusion and the children calmly marched out of the burning building, which was so quickly destroyed as to preclude returning for wraps or anything. The fire, which was owing to a defective flue, caused a loss of \$18,000. There was \$18,000 insurance.

"Although at first blush the proposition may appear somewhat romantic," said a prominent citizen to The News the other day, "the time is rapidly approaching when Huntington Beach and this city will be connected with a canal capable of being navigated by small pleasure boats. This waterway will be lined with cottages and will be one of the most attractive features of Southern California. The cost of dredging will be more than met by the increased value of land along the canal, and those who do not think the whole thing would be a paying proposition would do well to get out their pencils and do a little figuring."—Newport News.

If the present plans of Mr. James G. Cortelyou, president of the Manhattan Beach company, mature, that beach will present a pleasing appearance by next summer. It is Mr. Cortelyou's intention to grade down the top of the hill and fill up the valley in the rear. Mr. Cortelyou has engaged his brother Spencer V. Cortelyou, to give the plans and specifications for the machinery consisting of gas engines, cables, scrapers, etc., to grade down the top of the hill and fill up the back valley, which will give a gradual slope from Manhattan avenue to the Santa Fe tracks. While it is a big job, it is not as enormous as it seems at first, as the deepest cut and fill is not over twenty or thirty feet. The actual work will commence as soon as the financial conditions ease up a little more. Mr. Spencer V. Cortelyou is assistant director of public works in the Philippine Islands, and recently had charge of a piece of work in that country that necessitated the expenditure of several millions of dollars. He is visiting with his brother at present and has taken this opportunity to give his attention to the Manhattan work.

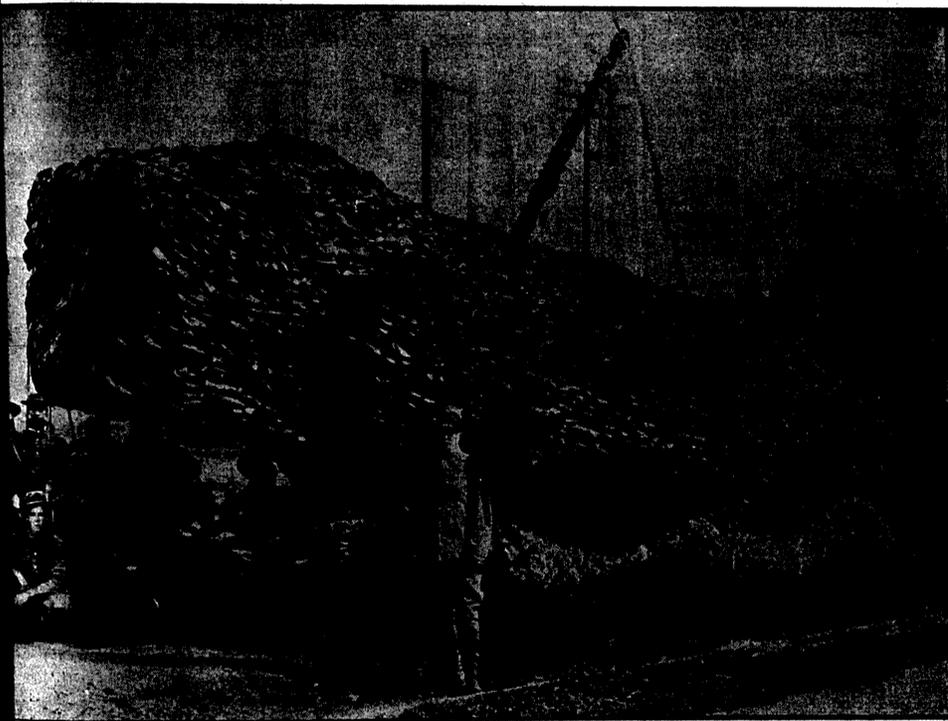

## MASONS ELECT OFFICERS.

Last Thursday evening Redondo Lodge, F. & A. M., elected officers as follows:  
C. W. Grassel, W. M.; J. G. Stark, S. W.; D. J. Pitts, J. W.; A. M. Harter, Sec.; Peter Brown, Treas.

## BISHOP JOHNSON AT CHRIST CHURCH MONDAY EVENING.

The Right Rev. Bishop Johnson of Los Angeles will officiate and preach in Christ Church next Monday night, January 6th. The service will begin at a quarter to eight o'clock.

The Mid-winter Carnival—Feb. 14.

Float Entered by Redondo Beach Chamber of Commerce at Pasadena Tournament of Roses.

do that was in the special committee in charge of the work. President H. Burnett of the Chamber of Commerce selected his committee and Friday morning saw work under way. Plans for the building of the whale were drawn by E. C. Kent, and Saturday morning the shops of the L. A. Ry. Co. was the scene of activity as a score or more of hustlers. R. E. Ellithorp, an employe of the Los Angeles railway, who for a number of years has worked on floats for the state of Los Angeles, was engaged to take active charge of the work, being ably seconded by W. F. Goble, chairman of the shops.

Some strenuous work was done on Saturday night, Sunday, Monday night and Monday, but Monday evening saw the leviathan completed, except for the floral decorations, which were not put in place until its arrival at Pasadena. Monday the float was loaded onto a Santa Fe flat car and Tuesday was landed in freight yards at Pasadena, where a delegation of Redondo hustlers were hand to hand to the finishing touches, which, by the way, were considerably more than touches, as it required almost the entire night to complete the job.

Early Wednesday morning the Arrowhead Club boys and a number of committee who had not been able to go sooner, were on hand to take charge of the monster for the parade.

The framework for the immense float was built upon the large automobile of Mr. H. B. Ainsworth, and it is a load for even that huge machine, there being a weight of over five tons on the motor. Mr. Ainsworth drove the machine in the parade, and notwithstanding the handling of not being able to see the road all, had not the least trouble in guiding his position in the line. He was guided by directions from the boys on the outside. After the line of work had been completed and the

fully was the carrying of props under the big tail of the whale, which had been calculated to swing from side to side, but which, on account of its excessive weight, proved unwieldy and had to be supported, the boys taking turns at this job, made doubly hard by the fact that the automobile exhaust pipe came out right in front of them and they had a flood of gasoline smoke and odor to contend with.

The guard of honor was made up of C. H. Burnett, President of the Chamber of Commerce, in the lead, with Gordon Grassel, of the Arrowhead Club, as his aide, both being mounted, and the following Arrowhead Club boys: Louis Heath, Elwin Lechner, Edward Lechner, Everett Lechner, Albert Lerch, Albert Moore, Frank Baldwin, Merton Albee, Wilson Albee, Roy Heath and Scott Searing of this city, and Clinton Secombe, Frank Secombe and Sherman Andrews of Los Angeles, made up as whale hunters and fishermen. J. P. Luxford, Ed. C. Thomas and Jno. Steward formed a trio of rooters who passed out cards descriptive of the exhibit, and incidentally boosted for Redondo at every opportunity.

Inside the whale—and it was decidedly a hot place to be—were H. B. Ainsworth, running the motor; C. V. Means, working the fins; R. E. Ellithorp, at the whale's snout, making the well-known "spout," and C. Lenz, who did the jaw-opening and closing act.

The entire float had a length of 41 feet, while it was 12 feet in diameter. It was a life-size representation of a sperm whale, and was composed entirely of magnolia leaves and carnations. The inside of the mouth, the fins and the broad tail were entirely covered with red carnations, while a border representing the sea, entirely around the supposed water line, was made up of white carnations. The mouth was eight feet long, fins six

(Continued to Page Six)

cently completed Casino representing \$30,000 in hard coin.

Of business blocks there have been a considerable number, including the Whicelo-Stark block, costing \$8,000, the Myers block, \$8,000, the Ranscom block, \$6,000, the Hoansler building, \$5,000, and several smaller business places.

The new Los Angeles-Pacific depot was also built at a cost of about \$2,000. The new Grammar school has been a substantial improvement, costing \$12,000, and the four-room addition to the old school building, which cost about \$3,000, has, with the fine High School building already built at a cost of \$18,000, placed Redondo in the front rank of cities of its size in the matter of educational facilities.

The remodeling of Weddington's restaurant on Wharf No. 1, now almost completed, \$1,800, and of the Steamship company's offices has done much to add to the appearance of the pier. Coming down to residences it would be hard to say how much has been done, owing to the fact that building permits are not issued here, but various estimates from bulldozers indicate big things. Two men estimated that over 200 dwellings, big and little, had gone up. Other figures were more conservative. There were at least forty ranging between \$1,000 and \$1,500, and probably half that number which ran over \$2,000.

It is safe to say that about \$2,000,000 has been expended in building construction during the past year.

Much street grading has been done, the longest piece of work being that of Elena avenue, with other work on Camino Real and Beryl street. Work on portions of other street has also been ordered.

Storm drains have been laid entailing considerable expense, and \$80,000 has been voted for a sewer system, work on which will commence immediately.

The City Hall and fire barn now well

## THURSDAY, JANUARY 2, 1908.

1908.

Did you swear off?

How many of last year's resolutions did you keep?

How many of this year's good intentions do you expect to fulfill?

Robert Sherman has been appointed general manager of the Los Angeles Pacific railroad to succeed T. R. Gabel, who retired January 1, 1908.

Arizona leads the world in mineral output for the year just closed, the total cash value reaching \$67,000,000. She owes her supremacy to the immense quantities of copper produced.

"When New Year Dawns," by Arthur E. Denning, of this city, is as timely as it is good and as good as it is timely. Another poem on "Redondo," by the same author, will appear later.

Two travelers who had walked around the world were arrested for tramps when they reached Los Angeles. While they may not be classed as hoboes, they certainly may truthfully be called tramps.

One of our readers has called attention to the fact that boys with airguns are playing havoc with the song birds as well as annoying people by shooting around their premises. He suggests that the city fathers pass an ordinance prohibiting their use.

It is the opinion of Captain Hobson that the sailing of the Atlantic fleet is the first step on the part of the United States in behalf of the white nations of the earth to prevent the encroachment of the "yellow peril." The hero of the Merrimac holds that the only way to prevent a conflict with Japan is to obtain mastery of the Pacific.

As an example of what concerted and concentrated action can accomplish; the results obtained by the Chamber of Commerce exhibit at the Pasadena Tournament of Roses is right to the front. The result accomplished in this instance will be duplicated times without number if the same united support is continued in all efforts of the Chamber.

The Reflex has been asked to call attention to the fact that certain persons who are old enough to know better are making themselves obnoxious to the better class of our people by their rude behavior in places of public amusement. They do not hesitate to talk aloud during any performance to the annoyance of those who would like to hear what is going on on the stage. Such conduct not only reflects discredit upon the individual, but has served to give Redondo a bad reputation among outsiders. It only takes a very few such people to give a bad cast to a whole community of otherwise first class people.

Miss Jenks received a letter from one of the boys on board the Pennsylvania enclosing a program of events on board the vessel on Christmas day. This included all kinds of athletic contests for substantial cash prizes, and also the menu for the dinner, which included consommé, various relishes, Smithfield ham, lobster salad,

roast young turkey with dressing, cranberry sauce, mashed potatoes, green peas, sweet corn, mince and raisin pies, apples, oranges, nuts, cigars, cigarettes and black coffee. The friends the boys made here will be glad to learn they fared so well.

In connection with the proposed visit of Admiral Evans' battleship fleet to Redondo Beach, it is interesting to know that seven of these ships out of a total of sixteen were built by the Newport News Shipbuilding and Dry Dock company, which is a Huntington concern and one of the largest shipbuilding plants in the United States. The vessels in question are the Minneapolis, Louisiana, Virginia, Missouri, Illinois, Kentucky, and Aearsarge. The two latter are sister ships, and have superimposed turrets. They are the only ships of this design in the world.

## TRUSTEES' PROCEEDINGS.

The city Board of Trustees met in adjourned session last Monday evening. Members Steel, Graham and President Quint only being present. A bill or so was audited and ordered paid. The drug store license of E. J. Plummer was authorized to be transferred to O. P. Brady. A communication from W. M. Garland was received asking the board to take some action to prevent the Santa Fe from keeping its engines standing in front of the pavilion any longer than necessary. This with other communications was held over for action by the full board at a later date.

A proposition from the Santa Fe Ry. Co., agreeing to accept \$1600 and the cost of removing buildings from its property for the strip of land necessary to the opening of Pacific avenue, was read. This will be acted upon later.

J. A. Dean was appointed assistant engineer under Mr. Olmsted, for service on the sewer system. He is to be paid by Mr. Olmsted.

## YOUNG LADIES' SOCIAL CLUB ENTERTAIN.

Delightful Party Given at the Home of Irene Vogele.

The Young Ladies' Social Club entertained New Year's eve at the home of Irene Vogele, 418 Francisca avenue. The house was beautifully decorated with ferns and flowers. Refreshments were served.

The place-cards were hand-painted in the form of lemons, with resolutions written inside, which caused a great deal of merriment.

Those present were Misses Hazel Venable, Dora Campbell, Agnes Johnson, Marian Albee, Adelaide Barkley, Gertrude Vogele, Irene Vogele and Lillian Vogele; Messrs. Wilson Albee, Gordon Grassel, Joe Cecchini, Frank Baldwin, Albert Lerch, Roy Heath, Elwin Lechner and Everett Lechner.

## ATHLETES, ATTENTION!

Meeting to Be Held in Pavilion to Organize Athletic Club.

Monday evening a meeting will be held in the Pavilion for the purpose of organizing an athletic club in Redondo. A general invitation is extended to all interested in athletics to be present.

Such an organization would add much to the social activity of Redondo and should by all means be consummated.

The finest Coffee Substitute ever made has recently been produced by Dr. Shoop of Racine, Wis. You don't have to boil it twenty or thirty minutes. "Made in a minute," says the Doctor. "Health Coffee" is really the closest coffee imitation ever yet produced. Not a grain of real coffee in it either. Health Coffee Imitation is made from pure toasted cereals, or grains, with malt, nuts, etc. Really it would fool an expert—were he to unknowingly drink it for coffee. Sold by Chrisman & Chrisman, Pacific avenue.

Nobody can really harm you but yourself.

## Why Suffer From Rheumatism?

Do you know that rheumatic pains can be relieved? If you doubt this just try one application of Chamberlain's Pain Balm. It will make rest and sleep possible, and that certainly means a great deal to any one afflicted with rheumatism. For sale by O. P. Brady, successor to E. J. Plummer.

## NOTICE INVITING STREET WORK PROPOSALS.

Pursuant to statute and to Resolution No. 131 of the Board of Trustees of the City of Redondo Beach, California, adopted on the 9th day of December, 1907, directing this notice, the undersigned will receive in his office in the City Hall of said City of Redondo Beach, up to the hour of 8:00 p. m., of Monday, the 13th day of January, 1908, sealed proposals or bids for the following street work to be done in accordance with the specifications and plans adopted for said work on file to-wit:

That said

## EI REDONDO

in said City, from the Easterly curb line of Francisca Avenue in a southerly direction to the easterly curb line of Francisca Avenue, including all intersections of streets, (excepting such portions of said street and intersections as are required by law to be kept in order or repair by any person or company having railroad tracks thereon, and also excepting such portions as have already been graded, oiled, guttered, curbed and sidewalked and accepted), be graded, oiled, guttered, curbed and sidewalked to the official grade in accordance with the plans and profile on file in the office of the City Engineer and specifications on file in the office of the City Clerk of the City of Redondo Beach, for grading, oiling, guttering, curbing and sidewalking the streets; said specifications being numbered respectively as follows:

First—For grading, graveling and oiling streets in the City of Redondo Beach with the natural gravel of the streets and crude oil, said specifications being numbered six, Class B.

Second—That a cement curb be constructed along each line of the roadway of said El Redondo in said City of Redondo Beach from the said intersection of said El Redondo with the easterly curb line of Francisca Avenue in a southerly direction to the easterly curb line of Francisca Avenue. Said curb to be in accordance with the specifications for constructing cement curb, on file in the office of the City Clerk, said specifications being Number Two.

Third—That a cement gutter be constructed along each line of El Redondo in said City of Redondo Beach, from the intersection of said El Redondo with the easterly line of Francisca Avenue in a southerly direction to the easterly curb line of Francisca Avenue. Said gutter to be 3 feet in width, and to be constructed in accordance with the specifications for constructing cobble, cement and brick gutters, on file in the office of the City Clerk, said specifications being Number 3A.

Fourth—That a cement sidewalk be constructed along each side of El Redondo in said City of Redondo Beach, from the intersection of said El Redondo with the easterly curb line of Francisca Avenue in a southerly direction to the easterly curb line of Francisca Avenue, said sidewalk to be 5 feet in width and to be in accordance with specifications for constructing sidewalks on file in the office of the City Clerk, said specifications being Number 1.

The City Engineer of said City of Redondo Beach having estimated that the total cost of said improvement will be greater than 50 cents per front foot along each line of said portion of said street proposed to be improved as aforesaid including the cost of intersection work assessable upon said frontage, it is hereby determined and declared in pursuance of an Act of the Legislature of the State of California, approved Feb. 27, 1893, and the Act of the Legislature of the State of California, amendatory thereof, which took effect March 2, 1899, that serial bonds shall be issued to represent the expenses of said proposed improvements. Said bonds shall be serial, extending over a period of ten years from that date, and shall be issued in the manner and form provided by said Act, approved February 27, 1893, as amended by an Act of the Legislature of the State of California, which said act took effect March 2, 1899. That a bond shall be issued to represent each assessment of Twenty-five (\$25.00) Dollars or more remaining unpaid for thirty days after the date of the warrant issued upon the assessment for said work, or five days after the decision of said Board of Trustees upon an appeal, an even annual proportion of the principal sum thereof shall be payable by coupons on the second day of January of each year after their date until the whole is paid, said bonds shall bear interest of 7 per cent per annum on all sums unpaid until the whole of said principal and interest are paid; said interest shall be payable semi-annually on the 2nd days of January and July, respectively, of each and every year.

Bidders must file with each proposal or bid a check payable to the order of the President of the Board of Trustees of the City of Redondo Beach, certified by a responsible bank, for an amount which shall not be less than ten per cent of the aggregate of the proposal; or a bond for said amount and so payable, signed by the bidder and two sureties, who shall justify before an officer competent to administer oaths. In double the said amount over and above all statutory exemptions. In bidding use blanks which will be furnished by the City Clerk upon application.

City of Redondo Beach, California; dated December 23, 1907.

S. D. BARKLEY,

City Clerk and ex-officio clerk of the Board of Trustees of the City of Redondo Beach.

### A. P. CONDUCTOR

AUTHOR OF BOOK

Charles Merrill Has Compiled Most Ingenious Guide to Los Angeles Ever Issued.

Where you want to go and how to get there," is the title of a pocket book and number directory that covers every street and car line in Los Angeles.

So simple is it arranged that the use number of any person in Los Angeles can be found in a moment, either with the name of the car by which to reach the house, the name of the street at which to get off the car, the distance to walk, and the direction to take.

The manner of indexing was invented by Chas. W. Merrill, a conductor on the Los Angeles-Pacific Railroad, who says he got his idea from being compelled to answer every day a million questions as to proper cars, addresses and other information not found in a city directory.

The book contains a complete list of churches, public buildings, etc., the most important thing is the line list by which any person can locate any street or house number in the city of Los Angeles in less than a minute.

Chas. W. Merrill, like all inventors of a public utility, has had a struggle for recognition, but it has come at last, and by policeman, carman, fireman and official that has seen the book has seen it on sight.

Chas. W. Merrill is no more a car conductor invention has caught on.

### THE VANGUARD TAKES THE CAKE

The editor of the Venice Vanguard is much indebted to the ladies of the Venice Sunshine Society for the beautiful and beautifully decorated Christmas cake sent to this office. We appreciate the gift very much. While we feel justly proud of the way the people of Venice and Ocean Park have taken hold of The Vanguard we had no idea that the paper was being "to take the cake" quite so soon. This was real sudden. The cake was "out of sight"—or will be the time the good ladies read this acknowledgment of their thoughtfulness and kindness. Many thanks, ladies. Who told you our weakness for cake?—Vanguard.

### NOTICE OF ANNUAL MEETING.

Notice is hereby given that the regular annual meeting of the stockholders of the Farmers and Merchants National Bank of Redondo will be held at the banking rooms of said bank, situated at No. 100 N. ### Bad Stomach Trouble Cured.

Having been sick for the past two years with a bad stomach trouble, a friend gave me a dose of Chamberlain's Stomach and Liver Tablets. They did me so much good that I bought a bottle of them and have used twelve bottles in all. Today I am well of a bad stomach trouble.—Mrs. John Lowe, Cooper, Maine. These tablets are for sale by O. P. Brady, successor to E. J. Plummer.

Before money was invented many people were happy.

Trial Catarrh treatments are being mailed out free, on request, by Dr. Shoop, Wis. These tests are proving to the people—without a penny's cost—the great value of this scientific prescription known to druggists everywhere as Dr. Shoop's Catarrh Remedy. Sold by Pacific Drug Co.

# NEWS OVER THE STATE

## Items of Interest Culled From the Newspapers of Southern California.

Highland Park is to follow Glendale's example and have a cleaning-up campaign.

Fullerton shipped 1000 carloads of oranges, 100 cars of walnuts, 300 cars of cabbages and 200 cars of other farm products during 1907.

Burbank is soon to be the proud possessor of an up-to-date private sanitarium, which is to be established by Dr. Elmer H. Thompson of that place.

The Santa Ana Chamber of Commerce has been asked by the Anaheim body to consider the proposition of securing a string of electric lights along the main road from Santa Ana to Fullerton.

The Cox ranch of 310 acres, situated in the Arch orange belt about thirty miles from Bakersfield, has been bought by Percy H. Clark of Los Angeles and S. A. Blythe of Tulare for \$218,000.

The walnut association of La Habra valley shipped over \$15,000 worth of walnuts in the season just closed. The members think this is a good record, considering the fact that the nuts are all from young trees.

A benevolent association has been incorporated in South Pasadena with the object of aiding all needy and destitute people living in and around that city. The membership fee is \$2.00 per annum or \$25 for a life membership.

Forty-five new houses have gone up in Inglewood during the year at a total expenditure of \$172,000. It is estimated that over 200 electors are eligible to vote at the coming incorporation election by which the promoters hope to establish Inglewood as a city of the sixth class.

The big packing house recently burned at Redlands is to be rebuilt at once by the owners, the Producers Packing Association. The company had just installed new machinery and would have started running on Monday with a capacity of 300 raw-hide pulp boxes per day.

During the months of November and December there were over 2000 carloads of citrus fruits shipped out of California, and this year's crop is conservatively estimated at 30,000 carloads, which would make it a record-breaker. When this amount of the golden spheres go rolling over the Rockies, it's no wonder the easterner goes out on a still hunt to try and discover where all this beautiful luscious fruit comes from, anyhow.

Owing to the increase of business which has seriously taxed the capacity of the Corona Gas & Electric company recently, that corporation discounting the future, has arranged to take over the plant of the Pacific Light & Power company to the extent of contracting for 17,000 volts and will immediately erect a seven mile pole line to connect with the Pacific power house. A consignment of poles has already arrived, and the necessary copper wire is expected in a few days.

Redlands packers say that there is more white labor in the local market this year than ever before and that they cannot employ nearly all of the men that make application for work. Secretary Hollabaugh, of the Y. M. C. A., says he is having far more applicants than he can find work for and Constable Hetback of Redlands Junction, says that the men are going in crowds along the Southern Pacific track to the Imperial Valley hoping to find work on the ranches there.

One of the biggest tax payments made to the city of Los Angeles was that of the Edison Electric Company, which turned over to City Tax and License Collector Johnson a total of \$50,000 as its toll on franchises to do and to be. On the "to do" franchise, the tax was \$28,000, and on the "to be" privilege, \$22,000. The company made a strong protest, without avail, before the City Council, sitting as a Board of Equalization, and when it paid the money to the Collector it did so under protest, leaving the way clear for future contest.

A report has been received from Searchlight that an important discovery of oil has been made about midway between that town and Needles. It reveals itself on the surface of springs and there is said to be a good showing of rock in the way of shale. The locators are W. A. Rorke of Searchlight and Thomas Wilcox, lately an engineer on the Riverside ranch. They returned with the news of their find after three weeks of severe traveling. It is reported that capital stands ready to back the enterprise and that one important customer in the Santa Fe Company is willing to accept the entire output of the product.

Five more years of continuous work on the fire trails through the San Bernardino forest reserve and the danger from any destructive and widespread forest fire will be a thing of the past. Add to these fire breaks a good wagon road clear up the Santa Ana canyon and another into Bear Valley via Mill Creek canyon, the mountain forests will be saved from utter destruction. Which also means

that the valleys below will have their water supply conserved to such an extent that adequate irrigation water may be had in perpetuity. Constant vigilance, and easy access to all parts of the forest reserve will enable all the rich valley lands to be put under intensive cultivation for all time.

### The Price of Peace.

The terrible itching and smarting, incident to certain skin diseases, is almost instantly allayed by applying Chamberlain's Salve. Price, 25 cents. For sale by O. P. Brady, successor to E. J. Plummer.

Nobody can compute the value of a smile; a frown has cost a kingdom.

When the stomach, heart or kidney nerves get weak, then these organs always fail. Don't drug the stomach, nor stimulate the heart or kidneys. That is simply a makeshift. Get a prescription known to druggists everywhere as Dr. Shoop's Restorative. The Restorative is prepared expressly for these weak inside nerves. Strengthen these nerves, build them up with Dr. Shoop's Restorative—tablets or liquid—and see how quickly help will come. Free sample test sent on request by Dr. Shoop, Racine, Wis. Your health is surely worth this simple test. Sold by Pacific Drug Co.

Go bury thy sorrow, the world hath its share. And just smile.

### FROM THE ANTILLES.

Chamberlain's Cough Remedy Benefits a City Councilman at Kingston, Jamaica.

Mr. W. O'Reilly Fogarty, who is a member of the City Council at Kingston, Jamaica, West Indies, writes as follows: "One bottle of Chamberlain's Cough Remedy had good effect on a cough that was giving me trouble and I think I should have been more quickly relieved if I had continued the remedy. That it was beneficial and quick in relieving me there is no doubt and it is my intention to obtain another bottle." For sale by O. P. Brady, successor to E. J. Plummer.

A smile is potential, magnetic and dispels trouble.

A tickling cough, from any cause, is quickly stopped by Dr. Shoop's Cough Cure. And it is so thoroughly harmless and safe, that Dr. Shoop tells mothers everywhere to give it without hesitation, even to very young babes. The wholesome green leaves and tender stems of a lung-healing mountain shrub furnish the curative properties to Dr. Shoop's Cough Cure. It calms the cough, and heals the sore and sensitive bronchial membranes. No opium, no chloroform, nothing harsh used to injure or suppress. Simply a resinous plant extract that helps to heal aching lungs. The Spaniards call this shrub which the Doctor uses, "The Sacred Herb." Always demand Dr. Shoop's Cough Cure. Sold by Pacific Drug Co.

Hard luck stories are like over-due notes.

Chamberlain's Cough Remedy a Safe Medicine for Children. In buying a cough medicine for children, never be afraid to buy Cham-

berlain's Cough Remedy. There is no danger from it, and relief is always sure to follow. It is intended especially for coughs, colds, croup and whooping cough, and there is no better medicine in the world for these diseases. It is not only a certain cure for croup, but, when given as soon as the croupy cough appears, will prevent the attack. Whooping cough is not dangerous when this remedy is given as directed. It contains no opium or other harmful drugs, and may be given as confidently to a baby as to an adult. For sale by O. P. Brady, successor to E. J. Plummer.

## Out of Date Plumbing is Unhealthy

Plumbing fixtures and systems as made and installed some years ago were very efficient at that time, but so many improvements have been made recently in sanitation that an old plumbing system is not only unsanitary, but is a menace to the health of the occupants of the house in which it is still in use.

### Is Your Plumbing Out of Date?

If so, the members of your household are constantly risking their health. Defective plumbing generates germ-bearing sewer gases which pollute the atmosphere and cannot help but be breathed by the occupants. Sewer gas is dangerous and the strongest constitution cannot long withstand its ill effects.

Let us examine the condition of your plumbing, in order to correct defective piping and install the best and most sanitary fixtures made, namely "Standard" Baths and One-piece Lavatories. "Standard" Ware is guaranteed. If this is done, your home will be healthy and more comfortable. Ask for booklet "Modern Home Plumbing."

 them listed with J. P. Luxford, Gar-  
 land building. 3-1f

Mr. George Corea, one of the en-  
 gineers at the power plant, was a  
 New Year's guest at the Welton  
 home prior to leaving for the Imperial  
 Valley to look after his farming in-  
 terests. He will be absent several  
 months.

The special chorus which furnished  
 music for the Christmas entertain-  
 ment at the Congregational church  
 has been organized into a permanent  
 choir. They will meet every Thursday  
 afternoon in the church for practice.

Mr. Lemon of Oxnard will succeed  
 Mr. Walton in the photograph business  
 here. The gallery will be recon-  
 structed and combined with the build-  
 ing formerly occupied by Mr. Hutch-  
 inson as a real estate office.

The Mid-winter Carnival—Feb. 14.  
 Mr. and Mrs. A. F. Welton spent  
 Christmas with the former's brother  
 in Fallbrook. On their return they  
 were accompanied by their niece, Miss  
 Edna Welton, who remained with  
 them till Friday.

Mr. and Mrs. A. Bert Walton, who  
 have been conducting the photograph  
 gallery by the plunge, have gone to  
 Old Mexico, where they expect to  
 locate, probably in some part of  
 Chihuahua.

B. A. Doble, who has been in a very  
 critical condition from an attack of  
 pleurisy, is very much better after an  
 operation to draw off the large accumu-  
 lation of pus which had gathered in  
 his lung.

Through a typographical error last  
 week we informed our readers that  
 the ladies of the church had presented  
 Mrs. Hardy with a handsome ring.  
 What they really did give her was a  
 rug.

M. M. Benton, archdeacon of Ken-  
 tucky, and Mrs. Benton are spending  
 the winter in Redondo. They are  
 located in the Carpenter dwelling on  
 the Esplanade.

J. H. Cunningham of North Platte,  
 Neb., who owns a vineyard near here,  
 has been visiting in this section for  
 the past two months. He will return  
 some shortly.

FOR RENT.—Two furnished cot-  
 tages, each of three rooms; \$11 and  
 \$12, water paid. See M. J. More, or  
 phone 167. 21-1f

Miss Grosse, the hairdresser, who is  
 located in the Garland Block, wishes  
 the ladies to call upon her for any-  
 thing in the line of hairdressing or  
 manicuring. 25-m1

Our local curio dealers are having  
 considerable demand from eastern  
 dealers for Redondo gem stones, fre-  
 quently filling orders for \$50 worth at  
 a time.

A. M. Mumma and wife, who came  
 here from Dayton, Ohio, about two  
 months ago, expect to leave in a day  
 or two for Monrovia, where they will  
 locate.

Rev. F. A. Ziegler's Sunday morning  
 topic will be "Prayer." In the even-  
 ing the sermon will be on "What the  
 Best Intellectuals of Today Believe."

Mrs. Nevins and daughter, Miss  
 Trimble, one of the clerks in the  
 postoffice, spent New Year's day tak-  
 ing in the sights at Pasadena.

Miss Maude Welton spent from Mon-  
 day till Wednesday evening in Santa  
 Monica as the guest of Mrs. Barker.  
 The Mid-winter Carnival—Feb. 14.

### NEEDLEWORK CLUB EN- TERTAINS HUSBANDS.

Tuesday evening the Needlework  
 Club gave a delightful party at the  
 home of Mr. and Mrs. E. L. Chrisman  
 at which the husbands of the ladies  
 were guests of honor.

Elaborate decorations of alternate  
 ropes of asparagus fern and red crepe  
 tissue formed a canopy overhead in  
 both living room and dining room.  
 Japanese chains of red and green  
 were festooned over the lace curtains  
 at the windows and bouquets of crim-  
 son geranium were used.

Cards were played, 500 being the  
 game. Mrs. R. E. Matteson won the  
 first prize, a fine Japanese plate, and  
 Mrs. Eldridge the consolation, a box  
 of crystallized fruit. Judge Wells  
 carried off the gentlemen's first prize,  
 a beautiful burnished brass tobacco  
 jar. Mr. Hills got a bottle of catsup  
 (catchup) by way of consolation.

Besides the members and their hus-  
 bands the following were present:  
 Mrs. Eldridge of Los Angeles, Mrs.  
 Myers of Salt Lake, and Mr. and  
 Mrs. Schulte.

### SUNDAY SCHOOL CHORUS ENTERTAINED TUESDAY.

Last Tuesday afternoon the young  
 people who took part in the choral  
 exercises at the Christmas tree enter-  
 tainment at the Congregational church  
 were entertained at the home of Mrs.  
 Meacham, Miss Rena Hathorn assist-  
 ing. About thirty were present and a  
 delightful time was spent.

A progressive button stringing con-  
 test was engaged in, in which Eliza-  
 beth Hills was the prize-winner, re-  
 ceiving a handsome burnt wood glove  
 box.

This was followed by a peanut-  
 punching contest, in which the en-  
 deavor, not so simple as it sounds,  
 was to pierce peanuts with a hatpin.  
 Bessie Martin won first prize in this,  
 getting a burnt wood workbox, and  
 Gladys Clark received the consol-  
 ation prize, a pretty horseshoe on a  
 hoof, which ought to bring her luck  
 to win first prize hereafter.

The older members of the party  
 played finch.  
 Sandwiches, cakes and chocolate  
 were served.

### WEEK OF PRAYER.

From Monday to Friday evenings of  
 next week union prayer meetings will  
 be held nightly, alternating between  
 the Congregational and Methodist  
 churches. The topics will be as  
 follows:

Monday evening at the Congrega-  
 tional church, "Things Unseen."

Tuesday evening at the M. E. church,  
 "The Triumphs of Faith."

Wednesday evening, Congregational  
 church, "The Church Made Truly  
 Glorious."

Thursday evening, M. E. church,  
 "Missions, Home and Foreign."

Friday evening, Congregational  
 church, "Intemperance, the Master  
 Social Curse."

W. C. T. U. TO MEET  
 AT DR. GROUT'S.

The W. C. T. U. ladies will meet  
 next Wednesday afternoon at the  
 home of Dr. Ida L. Grout at the corner  
 of Emerald street and Catalina avenue.

Mrs. Dr. Sanderson will read a re-  
 port from the executive committee  
 meeting recently held in Los Angeles,  
 and an officer is expected to be present  
 to give a report from the National  
 convention.

A UNIQUE NEW YEAR DAY PARTY.

The Rev. Father de Garmo gave a  
 New Year Day party to the members  
 of Christ Church Sunday School on  
 Wednesday afternoon in the garth at  
 the rear of the parish hall.

After the playing of out-door games  
 in the field south of the church, the  
 band of merry-makers were invited  
 to partake of a feast of good things

## La Petite Theater

FORMERLY REDONDO ELECTRIC THEATER.

### An Entire Change of Program

Monday - Thursday - Saturday

NEW PICTURES  
 and NEW SONGS

DO NOT FAIL TO SEE IT

### WHEN NEW YEAR DAWNS.

The years as the waves of ocean  
 Roll incessantly onward and on,  
 And with the dawn of each coming  
 New Year,  
 We think of the years past and gone.

We think of the good resolutions  
 That time and again we have made;  
 How some of us broke them the  
 morrow  
 And some deep to heart were laid.

Our pity goes out to others;  
 We would like to see them reform—  
 But oh, do we look at the burdens  
 That by themselves are borne?

How easy we see fault in others—  
 It is really a fault of our own,  
 For if we cannot speak well of our  
 neighbor:

Bad seeds should never be sown.  
 "For as ye sow, so shall ye reap"—  
 From that book more precious than  
 gold—

So let good seeds in our hearts be  
 sown  
 And the harvest will be many fold.

Seek the faults that lie in us dormant,  
 Be our resolution this year—  
 Our pathway will be brighter,  
 Our hearts ever full of "cheer."

—Arthur E. Denning.

### THE CHILDREN'S PARTY.

Four hundred and twenty-five happy  
 school girls and boys were guests of  
 the Redondo Improvement Club last  
 Saturday afternoon. There were also  
 about one hundred adults who partook  
 of the company's hospitality.

Twenty-five gallons of ice cream  
 and cakes innumerable were con-  
 sumed, the boys of the Arrowhead  
 Club acting as waiters. The refresh-  
 ments were served in the big dining  
 room which had been elaborately de-  
 corated with green and holiday red  
 blossoms and tissue bells under man-  
 agement of Mrs. Matteson.

A grand march, dances and games  
 occupied a portion of the time and a  
 visit to La Petite completed an after-  
 noon of unalloyed pleasure.

Mmes. Roberts, Albee, Grassel and  
 Sigsbee and Miss Sands formed a re-  
 ception committee, who welcomed the  
 guests on behalf of the company.

### CARRIE NATION

certainly smashed a hole in the bar-  
 rooms of Kansas, but Ballard's Hore-  
 bound Syrup has smashed all records  
 as a cure for coughs, bronchitis, in-  
 fluenza and all pulmonary diseases.  
 T. C. H., Horton, Kansas, writes:  
 "I have never found a medicine that  
 would cure a cough so quickly as  
 Ballard's Horebound Syrup. I have  
 used it for years." Sold by O. P.  
 Brady, successor to E. J. Plummer.

### MRS. WHITESIDE GIVES PARTY TO FRIENDS.

Last Saturday evening Mr. and Mrs.  
 T. B. Whiteside entertained a small  
 party of friends who enjoyed a cosy  
 evening of sociability at their home  
 on Pacific avenue. A late supper was  
 served.

Those present were Mr. and Mrs.  
 J. W. Cleghorn, Mr. and Mrs. P. S.  
 Venable, Mr. and Mrs. C. W. Grassel,  
 and Mrs. Clara Heath.

### NEW FURNITURE FOR THE MASONIC HALL.

The Eastern Stars have fitted up  
 the Masonic Hall with beautiful new  
 furniture, including a fine altar, three  
 pedestals, three big chairs and ten  
 officers' chairs.

The furniture is of solid oak in the  
 mission style and is upholstered in  
 leather.

### ARROWHEAD BOYS TO GIVE LEAP YEAR PARTY.

Next Saturday evening the Arrow-  
 head boys are going to give their girl  
 friends an early opportunity to pro-  
 pose. They will give a party to their  
 young lady friends at the Lechner  
 residence.

**AT THE THEATERS.**

**Grand Opera House.**  
The new "Buster Brown" is announced for the Grand Opera House commencing Sunday afternoon, Jan. 5th. The name alone is enough to tell the story of the play, for Buster's antics and Tige's canine comedy are dear to every man and woman, boy and girl in the land. Buster is the favorite comedy character of eighty millions of Americans, besides a few millions of Canadians, English and Mexicans.  
This year's "Buster Brown" is a different play from that presented in past years. The juveniles will rejoice in the fact that there is more of Bus-

ter, Tige and Mary Jane in it and their elders will be consoled with the knowledge that there are twenty big song hits, a score or more of pretty girls and dainty dresses galore.  
Master Rice, who played the part of Buster here two years ago, will again be welcomed in the role. He is just the ideal Buster and it is said that Mr. Outcault, the Buster Brown artist, and the author of the play, insisted that no other than Master Rice should play this part. Master Rice is just thirty-two inches tall and as will be seen from his picture, is just the Buster Brown of the cartoons.

**The Orpheum.**

Once a year comes the Orpheum road show, establishing each time a new record of attainment in vaudeville, and each year setting a standard which must be lived up to for the other fifty-one weeks of the year—for the other bills are always judged in comparison with the road show. It goes without saying that the road show of 1908 is better than ever. It always is. Seven new acts, constituting the road show, with Ben Welch who remains for a second week, make up the Orpheum program for the week commencing Monday evening, January 6th.

All the seven acts have been headlined in the best vaudeville theaters of America and Europe, and it is difficult to give any one precedence, but perhaps the most general interest attaches to George Ade's playlet, "Marse Covington," which will be presented by Edward Connelly and a well selected company. Another feature, and a unique one, is the performance by Madame Cosselli's midge dogs. These are of the Chihuahua breed, said to be the smallest known race of canines. They are so toylike that their performance on the trapeze and the slack wire seems like the evolutions of a French mechanical toy. La Gardena, the famous Spanish dancer, is the next on the list. Her grace and beauty are proverbial, and this is her first appearance in the West. She is assisted by a troupe of five Spanish troubadours. Coram, an English ventriloquist, who is absolutely unique in his manipulation of the voice as well as in his clever use of his manikin, will create a new record in ventriloquial attainment. He has never been seen here before, having been engaged by Mr. Beck especially for this tour of the Orpheum road show. Kelly and Kent—Annie and James—are the only members of the road show who are familiar to Los Angeles audiences, and their previous appearance here a year ago will make them the stronger attraction. Their fun-making endeared them to the Orpheumites and they will receive a royal welcome. The Tom Jack Trio have a musical act that admits no rivals in its class. Their instruments are odd and their music—odd and interesting. Keno and D'Arville have an astonishing dancing specialty. The man is both acrobat and dancer, and the dainty Miss D'Arville demonstrates that high kicking may be modest, graceful and artistic—which most dancers fail in accomplishing. Ben Welch's Hebrew and Dago monologue and songs will remain an interesting feature of the program.

**SHIPPING NOTES.**

Schooner Irene sailed for Columbia River on the 26th of December, after

leaving a cargo of ties for the Santa Fe railroad.  
Schooner Salvator and barkentine Retriever sailed on December 27th. They also left ties for the Santa Fe. Steamer Jas. S. Higgins sailed for San Francisco on Dec. 28th. She left 156,000 feet of lumber for local dealers. Steamer Centralia sailed on Dec. 29th. She had a mixed consignment of 150,000 feet.  
Steamer Redondo left on Dec. 31st for San Pedro. The cargo left was ties for the Santa Fe.  
Steamer Nome City brought ties for the Santa Fe and grain for Los Angeles dealers.  
Steamer George Loomis arrived and departed on Dec. 28th, bringing gasoline for the Standard Oil company.  
Steam Schooner Reith brought lumber for Montgomery & Mullin.  
Schooner Bangor is due with lumber from Willapa Harbor.  
Steamer Santa Barbara is also due.

**CAPTURED EVERYTHING**

(Continued from Page One)

feet, and the tall 11 feet from tip to tip. In the roof of the mouth pampas plumes were used to represent the growth of whalebone.  
In all, over 10,000 carnations and 20,000 magnolia leaves were used in the construction. The greatest novelty of the float and what attracted most applause from the spectators, was the life-like spout of carnation perfume from the blow-hole of the whale. For this purpose five gallons of carnation perfume in 25 gallons of water were consumed.  
Redondo received in advertising, before the 100,000 visitors in Pasadena, many times the cost of the float, besides the prizes that were captured.

**LOOKING BACKWARD**

(Continued from Page One)

practising physicians, including two osteopaths.  
A lively merry-go-round furnishes amusement for the little ones, and a theater caters to the children of a larger growth.  
An excellent photograph gallery is among our institutions.

There are two hardware stores here, one of which carries a fine line of electrical fixtures, two plumbing establishments, an exclusive shoe store, three shoemakers, two tailor shops and a large furniture store, which also carries hardware and other lines of goods.  
The gas company carries a large line of stoves and fixtures of various kinds.  
The Sunset and Home telephone companies and Postal and Western Union telegraph companies afford facilities along their lines.

We have two exclusive jewelry stores, a cigar factory, four ice cream and confectionery parlors, two national banks, two savings banks, three meat markets and a fish market. We have also a Wells-Fargo agency and several transfer companies.  
This reminds us that fishing is an important industry here, the average daily shipment to Los Angeles being one ton, to say nothing of what is consumed locally.

We have two electric lines connecting with Los Angeles and an overland railway, two newspapers, each with good mechanical equipment, and with up-to-date job departments.  
Hotel Redondo furnishes fine accommodation for the wealthier tourists, and numerous rooming houses and restaurants cater to those of moderate means, though in this respect the city can hardly seem to supply the ever-increasing demand.

We have good water, electric light and gas systems.  
Last, but not least, we have a location which could hardly be surpassed. Redondo rises from the sea in amphitheatre form, curving round the bend of the bay and ascending gradually till a high elevation is reached at the east.

To the north is the industrial section, where the power plant, Standard Oil tanks, lumber yards, car barns, etc., are located, surrounded by the cozy homes of the workmen. In the center front is the business section, backed by many pretty homes and surmounted by our chief landmark, the High School.

Scattered over this part are our four church buildings, centers of religious and social life, our halls, where the members of numerous lodges foregather, the beautiful carnation gardens which have done so much to make Redondo famous.

To the south is beautiful Clifton-by-the-Sea, reached by the electric line and by the Esplanade, a magnificent speedway along the ocean front, where a 200-acre tract has been laid out, sewer, sidewalks, graded and oiled at an expenditure of \$300,000. Here a number of expensive residences have already been erected, the Esplanade also being lined with costly buildings where dwell our social elite.

Redondo has a fertile soil capable of growing almost anything down nearly to tidewater, as witnessed by the almost tropical collection of trees and plants about the hotel grounds and in the handsome gardens along the Esplanade.

We have a number of live real estate agents, who, with our public-spirited citizens, as represented by our recently organized Chamber of Commerce, are working together to make the advantages of Redondo known to the world.

The Girl's Christmas Club meets Friday afternoon with Irene Slater.

is a stage, and Ballard's Snow Lintment plays a most prominent part. It has no superior for rheumatism, stiff joints, cuts, sprains, and all pains. Buy it, try it, and you will always use it. Anybody who has used Ballard's Snow Lintment is a living proof of what it does. Buy a trial size bottle. 25c, 50c and \$1.00. Sold by O. P. Brady, successor to E. J. Plummer.

Shake hands as though you meant it, and smile.

**Stop That Cold**  
To check early colds or Grippe with "Preventics" means sure defeat for Pneumonia. To stop a cold with Preventics is safer than to let it run and be obliged to cure it afterwards. To be sure, Preventics will cure even a deeply seated cold, but taken early—at the sneeze stage—they break, or head off these early colds. That's surely better. That's why they are called Preventics.  
Preventics are Little Candy Cold Cures. No Quinine, no physic, nothing sickening. Nice for the children—and thoroughly safe too. If you feel chilly, if you sneeze, if you ache all over, think of Preventics. Promptness may also save half your usual sickness. And don't forget your child, if there is feverishness, night or day. Herein probably lies Preventics' greatest efficiency. Sold in 5c boxes for the pocket, also in 25c boxes of 48 Preventics. Insist on your druggists giving you
